A LESSON TO PROFIT BY.

GENERAL R. B. HAYES, the present Governor of Ohio, who has just been renominated by the Republicans, has made a speech which contains some observations which are quite as pertinent in this State as in his own. He declared that the last Legislature of Ohio afforded examples of many of the worst evils to which legislative bodies are liable. Among these evils he cites "long sessions, excessive legislation, unnecessary expenditures, and recklessness in authorizing local debts and local taxes."

The only difference between the Legislatures of the two States consists in the fact that the Republicans controlled that of Pennsylvania, while that of Ohio was under Democratic sway. In both States the members cast entirely aside their partisan differences, their appetite for power being stronger than their aversion for unsound political views.

But the acquiescence of the party having the majority in every villainous scheme presented renders the members of that party directly responsible to the people for its perpetration. If the Democratic members of the Ohio Legislature and the Republican members of that of Pennsylvania had taken a bold stand against corruption and rascality in all their varied phases, the minority might have been composed of the most reckless and unprincipled men in either State, and yet have been utterly powerless for evil, just as they would have been utterly powerless for good if the circumstances had been reversed.

For this reason the rebuke administered to the dominant party in Ohio by one of its own members is entirely applicable in our own State, and we again appeal to the Republican voters of this city to reject with indignation the claims of every man who set in the last Legislature and now has the audacity to present himself to the people for re-election.

Messrs. Stokes, Davis, Bunn, Adaire, Cloud, and Hong are the names of the men upon whom every true Republican who desires the purification and future success of the party should turn a cold shoulder at the next election.

To-morrow morning the Democrats hold their nominating conventions, and they have it within their power to materially assist the honest Republicans of Philadelphia in an effort to purify the halls of legislation at Harrisburg. If they nominate good and true men in each of the six districts which were represented last winter by Stokes, Davis, Bunn, Adaire, Cloud, and Hong, their chances of success will be materially improved through the assistance of hundreds of Republicans who are determined that no man who held a seat in the last iniquitous Legislature shall have half-a-dozen more Democrats in the next Legislature than there were in the last.

If these half dozen Democrats should prove to be decent and honest men; if it will be infinitely better to have the six seats filled by Democrats, if they must be filled by men who are deficient in both decency and honesty.

The Twelfth and Sixteenth street bill was passed in spite of the opposition of the entire press of Philadelphia, and in the face of respectful protests from citizens who objected to any more of our highways being given up for railway purposes. The passage of this bill was a deliberate outrage and an insult to the citizens of Philadelphia, and the facility with which Governor Geary signed it placed him in the same category as the corrupt legislators who voted for it.

The Supreme Court is practically impotent in this matter, and we have now before us a potent argument against the election of any of the old set to places of power again. Some of these men have managed by hook or by crook to gain renominations, and independent voters should see to it that they do not have another chance to perpetrate such villainies. The names of the candidates who participated in this outrage are John W. Geary, Governor; and Messrs. Stokes, Davis, Bunn, Adaire, Cloud, and Hong, of the House of Representatives.

If these men are elected again, the public will not deserve anything better than a repetition of the swindling transactions that disgraced the last session of the Legislature.

A "HERALD" CANARD.

WHEN ex-Secretary Borie, on Friday last, placed his resignation in the hands of President Grant, the New York Herald, with its characteristic and reckless enterprise, gave to the world what purported to be exact copies of the correspondence which passed between Mr. Borie and the President. In common with other journals, we reproduced this correspondence, but the singularly cold and formal style in which the President was represented as addressing a gentleman for whom we knew he entertained the warmest regard and the highest esteem, led us to investigate its authenticity. As the result, we are enabled to pronounce the correspondence as published by the Herald a downright forgery, and this we do on the very best authority—authority that does not admit of question.

The appointment of Surgeon William Maxwell Wood, U. S. N., to the position of Chief of the Bureau of Medicine and Surgery, is announced. Dr. Wood was born in Maryland, and entered the navy as Assistant Surgeon in 1829. He served in the Mexican war and took part in the bombardment of the forts in China in 1857. During the late war he was Fleet Surgeon of the North Atlantic Squadron, participated in the engagement between the Rebel ram Merrimack and the Monitor, as well as several other fights that occurred in the squadron to which he was attached. He is eminently qualified for the responsible position to which he has been called by the President. He is the author of a work on China, and has written a number of pamphlets on naval and political subjects.
